

Hope for Children and Families News from Onslow County

Welcome to the December edition of our newsletter! As we head into the hustle and bustle of the holiday season we have some exciting opportunities to share.

Don't forget to follow us on [Facebook](#), [Instagram](#), and [LinkedIn](#) for information, photos, and updates about what's happening at One Place.

Mental Health Matters

Our forever home, [the SECU Hope Center](#), has dedicated space for mental health treatment and we have plans to increase the number of trauma-informed mental health professionals on staff to provide wrap-around services for victims of child abuse and their families.

Access to specialized mental health care is critical for abused children to move forward in the healing process and give them hope for a productive, fulfilling life. Check out the video below to learn more about the need for mental health services.
